Create Your Own Chill-Out Area

Create Your Own Chill-Out Area

For this one it is as simple as grab some cushions, if you have one an old Pallet, see what paints you may have and enjoy painting your pallets with vibrant festival colours.

Pop your cushions on top and perhaps any flags or kites you have - fly them around you.

Make your favourite outdoor picnic, sit back, grab your favourite book and chill out.

You can also purchase small projectors online and simply need a white bedsheet to hang on the wall for the most cosy of summer evenings under the stars, watching your favourite family films., streamed from your smartphone.
